

Effective immediately, the test menu offered for Gynecologic Pap and HPV testing has been updated to include primary HPV testing. The following are orders available in Cerner.

- Cytology, Pap Smear (Liquid based) GYN Pap smear w/Reflex to hrHPV
  - PowerChart order – “GYN Pap with Reflex to HPV High Risk”
  - Will only reflex to hrHPV if cytology reveals ASCUS/AGUS
- Cytology, Pap Smear (Liquid based) GYN Pap smear AND hrHPV Co-Test
  - PowerChart order – “GYN Pap with HPV High Risk Co-Test”
- Cytology, Pap Smear (Liquid based/conventional) GYN Pap smear with no reflex testing
  - PowerChart order – “GYN Request (PAP)”
- HPV High Risk with Genotypes 16&18
  - PowerChart order – “HPV High Risk with 16 and 18 Genotyping”
  - Vaginal/cervical speculum specimens only
- **“HPV High Risk screen w/Reflex to Cytology, GYN Pap Smear (liquid based)”**
  - PowerChart order – “HPV High Risk Screen with Reflex to GYN Pap”
  - Initial hrHPV screening:
    - If hrHPV negative, then no reflex to cytological examination.
    - If hrHPV positive (16, 18 or pooled hrHPV genotypes), then reflex to cytological examination.
